OXYGEN WATER - PURE ENERGY

We took best quality low-mineralized water with an ideal PH of 7.43.

Using our unique, patented technology, we've combined two most important elements for the human organism, -Water and oxygen. We have taken food oxygen and saturated with the water on a molecular level, to a regulated content of 50-150 mg / l. For comparison, the oxygen content in ordinary drinking water ranges from 3-8 mg / l.

We have wrapped the resulting product in modern cans that have a special internal nanocover to achieve the best and most effective result overall.

OXYLIFE WATER, the world's most powerful oxygenated water.

O_2 - 120-150 mg/l.

OXYLIFE WATER keeps the bonded oxygen steady even after one to two hours after opening the can.

Enjoy the power and spell of unique OXYLIFE WATER Oxygen Water!
